## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 20, 40, 44, 46-48, and 50 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claims not been further treated on the merits and have not been included in the restriction requirement below.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, drawn to a device for supporting an ultrasonic transducer, classified in class 73, subclass 634.

Group II, claim(s) 16-19 and 21-39, drawn to an apparatus for rotationally positioning ultrasonic transducer supporting devices, classified in class 73, subclass 635.

Group III, claim(s) 42-43 and 45, drawn to an arrangement for ultrasonic testing of lengths of pipes, classified in class 73, subclass 622.

3. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they are subcombinations useable together and therefore do not require the technical features of the other groups recited.

4. A telephone call was made to Adam Stegge on 17 March 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be

Art Unit: 2856

traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
